

SILVER STREAK TRIMMER LINE

COPOLYMER LINE

A polymer made by reaction of 2 different monomers, with units of more than one kind. A blend of 2 different materials.

COPOLYMER LINE
General purpose trimming

Fire™ trimmer line is a round shape that is durable against concrete and trees. The intense red color stands out against the landscape when breakage occurs.

COPOLYMER LINE
General purpose trimming

Stealth™ trimmer line is a round shape that is durable against concrete and trees. The green color blends into the landscape when breakage occurs.

COPOLYMER LINE
Medium to heavy-duty trimming

Buzz™ trimmer line is a precise square shape providing 4 cutting edges for a clean cut in tall, thick and heavy weed conditions.

COPOLYMER LINE
Medium to heavy-duty trimming

Edge™ trimmer line has 6 cutting edges which provide more mass for long wear and delivers a clean cut instead of tearing. The green color blends into the landscape when breakage occurs.

CO-EXTRUDED LINE

Made by a simultaneous extrusion of 2 or more different, yet compatible, materials through the same dye. Co-extruded lines provide a durable, soft, flexible inner core for strength surrounded by a tough, long wearing outer shell, giving a longer wear life and decrease in line breakage, fraying and line welding.

CO-EXTRUDED LINE
Medium trimming

Ninja™ trimmer line is perfect for medium size jobs where a professional finish is required. It is a long lasting, multipurpose line that is great for landscapers and residential use.

CO-EXTRUDED LINE
Heavy-duty trimming

Optimum™ trimmer line provides 6 cutting edges, allowing more material mass for long wear and delivers a clean shear cut for less browning of grass tips. Quick and efficient cutting in more tall, thick and heavy weed conditions.

CO-EXTRUDED LINE
Heavy-duty trimming

Razor™ trimmer line provides 5 cutting edges, allowing more material mass for long wear and delivers a clean shear cut for less browning of grass tips. With this line, you get improved fuel efficiency, reduced noise levels and trimmer vibrations. Delivers the most professional looking results.

Stens has parts and trimmer line that work great with battery and electric operated trimmers

Dia. Trimmer Type

.065"	Electric trimmers
.080"	Electric trimmer and gas trimmer less than 25cc
.095"	25cc gas trimmer
.105"	Gas trimmer between 25 and 33cc
.130"	Gas trimmer larger than 33cc
.155"	Gas trimmer larger than 33cc

Usage

For light trimming
For light trimming
For trimming and light edging
For moderate edging and heavy trimming
For moderate brush clearing
For heavy brush clearing
